Discuss the Manual of Patent Examining Procedure (MPEP)

Welcome to the MPEP discussion tool! We have received many thoughtful ideas on Chapters 500 and 600 of the MPEP as well as on how to improve the discussion site. Each and every idea submitted by you, the participants in this conversation, has been carefully reviewed by the Office, and many of these ideas will be implemented in the next revision of the MPEP. We would like to thank everyone for participating in the discussion of the MPEP.

We have some great news! Chapters 100 through 400 of the MPEP are now available for discussion. Please submit any ideas and comments you may have on these chapters. Also, don't forget to vote on ideas and comments submitted by other users. As before, our editorial staff will periodically be posting proposed new material for you to respond to, and in some cases will post responses to some of the submitted ideas and comments.

Recently, we have received several comments concerning the Leahy-Smith America Invents Act (AIA). Please note that comments regarding the implementation of the AIA should be submitted to the USPTO via email at aia_implementation@uspto.gov or via postal mail, as indicated at [the America Invents Act Website](http://www.uspto.gov/americaninventsact). Additional information regarding the AIA is available at www.uspto.gov/americaninventsact.

We really appreciate your thinking and recommendations!

Getting Started:

MPEP sections can be viewed by clicking on the boxed plus sign next to each chapter name on the left. You must register on the site to contribute ideas, comments, and votes.

ePetitions

ePetition Resource Page

The ePetitions Resource Page provides useful information and guidance regarding the submission, automatic processing, and immediate grant of ePetitions.

- **Secure Filing with Auto-Grant.** Filing an ePetition via EFS-Web automates the petition process and allows petitioners to directly input the requisite information into a secure Web interface and immediately receive an ePetition decision.
- **Saves Time when Immediate Petition Decisions are Important.** Time savings using ePetitions is especially advantageous for critical petitions where an automatic petition grant would reduce delays in restoration of patent rights, expedite withdrawal from representation and redirect Office correspondence to the new correspondence address, and initiate the revival of an abandoned application to save patent term adjustment time.

For questions regarding Patent e-Filing, or to suggest improvements to the online system, please send an email to ebc@uspto.gov or call the Patent Electronic Business Center at **1-866-217-9197** (toll free) or **571-272-4100** from 6 a.m. to 12 Midnight Eastern Time, Monday - Friday.

IP Jobs Report

- IP-intensive industries accounted for about \$5.06 trillion in value added, or 34.8% of U.S. gross domestic product (GDP), in 2010.
- Every 2 jobs in IP-intensive industries supports an additional 1 job elsewhere in the economy.
- In total, 40.0 million jobs, or 27.7% of all jobs, were directly or indirectly attributable to the most IP-intensive industries.
- The AIA is strengthening IPR to allow those industries to continue to flourish and add jobs.

Thank You
